

Resolutions from the November 2008 Transport and Urban Development Committee

The Future of Queens Wharf as a Cruise Ship Terminal for the Auckland Region.

- a) That the report be received.
- b) That the Committee support further joint work with Ports of Auckland Limited, Auckland Regional Holdings, Auckland City Council and Central Government on a cruise ship terminal on Queen's Wharf, including work to:
 - Resolve issues around the ability of Queens wharf to support additional structures.
 - Identify operational solutions for the mixed use of Queens Wharf by existing vehicle and other cargo, a primary cruise terminal and the provision of limited public access; and
 - Develop and cost a proposal for a fit for purpose cruise ship terminal on Queens Wharf that is consistent with mixed use of the wharf for other cargo, other shipping (including ferries); and
 - Develop a funding proposal for consideration by potential funders; and
 - Place the investigation of future uses of Queens Wharf in the context of the wider waterfront and port operations.
- c) That the Committee recommend to Council that funds be allocated through the six monthly review to enable the Auckland Regional Council to contribute to a joint study of a possible cruise terminal on Queen's Wharf.
- d) That officers investigate and report back on the lessons learnt from the redevelopment of Princes wharf, giving particular attention to compliance matters and public interest issues such as pedestrian access and the quality of public open spaces.
- e) That the report be made available to the public and recommendations a) – d) be restated in public.
