Notes:

- i. AR means the actual and reasonable costs of compliance monitoring a consent.
- ii. For all Discharge to Air consents any Administration, Monitoring and Supervision costs associated with source emission testing and analysis will be recovered as an actual and reasonable additional charge (AR) in arrears. Typical costs for particulate testing are \$3,000 while other tests are \$2,000 to \$10,000.
- iii. **Medium** Discharges include industrial and trade premises dealing with galvanising, tanning, major heating and drying, metals, quarrying and other medium impact discharges.
- iv. **Low** Discharges include industrial and trade premises dealing with foam, minor heating and drying, waste and other low impact discharges.
- v. **Very Low** Discharges include industrial and trade premises with large boilers, many activities that were defined as Second Schedule Part B activities under the Clean Air Act 1972 (repealed), and other very low impact discharges.
- vi. **Minor** Discharges are activities that were defined as Second Schedule Part C activities under the Clean Air Act 1972 (repealed).
