Notice to Mariners:

Notice 26-09 Auckland Harbour Bridge Air Draft

Due to ongoing maintenance and strengthening work of the Auckland Harbour Bridge, the air draft has been reduced. Until strengthening work is completed the new air draft at the centre of the bridge is now **40m** above MHWS. The permanent air draft will be assessed at that time.

All mariners are asked to include this new figure when calculating any air draft for their vessel when transiting under the Auckland Harbour Bridge.

Not to be used for navigation.
