

Training & Education Programme

HEC-HMS Training Workshop - Hydrological Package for Applications in the Auckland Region

This training course is a one day course designed to provide an overview on the HEC-HMS package itself including an illustrated example and a workshop session to teach the practical use of the program. Basic knowledge of hydraulics, hydrology, ARC-approved stormwater management practices and Technical Publications TP10 and TP108 is desirable.

The programme includes:

- Background and general structure of the HEC-HMS hydrological modeling package;
- Overview of the program's menu structure;
- Capabilities and limitations of the program;
- Use of the package in the context of general TP10 and TP108 applications;
- Practical "tips" useful for the effective and efficient use of the program;
- Overview of design tools offered by the program including hydraulic analysis.

Workshop Dates: 16 June 2010
24 November 2010

Cost: \$475.00

Venue: North Harbour Stadium, Albany

Workshop Facilitators: Andrés Roa (AR-Civil)

Workshops are limited to 20 people per workshop. In order to reserve your place on a workshop, we will need a completed registration form, along with either a purchase order number or a cheque for the full amount. Please note that you will be charged for all cancellations within one week of the course taking place.
