

Training & Education Programme

Stormwater Management Design Training Course

The Stormwater Management Design Training Course is a two day course and is designed to give guidance for those seeking resource consents requiring the design, construction and maintenance of stormwater treatment devices. The course will be conducted by Earl Shaver and Susan Ira and covers an array of TP10 protocol.

The programme includes:

- Discussions on the ARC Stormwater Management requirements.
- A philosophical discussion of Stormwater Management.
- Specific design guidance for all practices in TP10.
- Construction and operational issues that can affect design.
- Low Impact Design approach.
- Case studies and Interaction (including Questions and Answers).

Course Dates: 25 & 31 March 2010
07 & 14 July 2010
12 & 19 October 2010

Cost: \$750.00

Venue: North Harbour Stadium

Course Facilitators: Earl Shaver and Susan Ira

Workshops are limited to 20 people per workshop. In order to reserve your place on a workshop, we will need a completed registration form, along with either a purchase order number or a cheque for the full amount. Please note that you will be charged for all cancellations within one week of the course taking place. For further information visit http://www.arc.govt.nz/environment/training/training_home.cfm or contact TEP@arc.govt.nz
